## Automated Financial Systems, Inc. Announces New Container-Based Deployment of AFSVision®

**Exton, PA—March 8, 2022—** AFS® reached another milestone in the delivery of the industry-leading, digital, real-time commercial lending platform—AFSVision—by providing a new container-based deployment model orchestrated by IBM’s (NYSE: IBM) Red Hat OpenShift.

This cloud native version of AFSVision offers significant benefits to all types of financial institutions to build their environments more efficiently and securely, and manage integrations within their ecosystem. With containers, and deployment automation, AFSVision can be installed more easily and consistently, regardless of whether the target environment is a private cloud, public cloud, or hybrid.

The containerized version of AFSVision was recently delivered to a U.S. subsidiary of a top 5 global bank with over €2.5 trillion in assets.

“This containerized release provides our customers with unmatched flexibility to run AFSVision in an auto scaling dynamic cluster that takes advantage of the Kubernetes ecosystem to simplify operations,” said Rad Laney, AFS Chief Information Officer. “This is a pivotal step in our modernization program that includes implementing DevSecOps with a secure (CI/CD) pipeline. By using containerization, we are able to deliver the value of AFSVision to more clients with increased flexibility, easier scalability, and greater efficiency gains.”

### About AFS

AFS is the global leader in providing real-time, end-to-end lending solutions to the world’s top-tier institutions as well as regional and de novo institutions. Solely dedicated to the financial industry, AFS is uniquely positioned to support our client’s business and technology transformation, evidenced by our solutions processing more than \$3 trillion in small business, commercial, CRE, wealth management, and syndicated loans daily. AFS clients have achieved measurable results in customer expansion, revenue increases and efficiency gains that outpace their competition. AFS is headquartered in Exton, Pennsylvania, with an office in Brussels, Belgium. For more information, please visit [www.afsvision.com](http://www.afsvision.com).
