

AFSVision®: The Premier Loan Servicing Platform for Private Lenders

In today's dynamic lending landscape, private lenders are reshaping the market by offering flexible, fast, and innovative financing solutions. But to stay competitive, you need more than just capital—you need capability. That's where AFSVision comes in.

Success starts with the right platform.

Built on decades of lending expertise and designed for the digital age, AFSVision delivers a comprehensive, cloud-enabled solution that empowers private lenders to manage complex portfolios with ease, automate operations, and gain real-time insights—all without the need for costly customization. As a fully integrated, real-time loan servicing platform, AFSVision empowers private lenders with the tools, technology, scalability, and agility you need to compete and grow in today's dynamic lending environment.

AFSVision empowers you to meet all of lending's biggest challenges.

Whether you're funding real estate deals, bridge loans, or bespoke credit structures, AFSVision modernizes your lending management by providing the tools to scale confidently, serve clients faster, stay ahead of market shifts, and compete with traditional lenders.

Fast Track Lending with Modern Technology

A major roadblock to efficient loan management is outdated systems or fragmented processes that slow down your time-to-market, servicing, and more. Updating your loan servicing platform provides the stable foundation you need to stay fast and efficient. With AFSVision you get:

- **A real-time, cloud-based platform** that centralizes all lending operations.
- **Automated workflows** that reduce manual errors and accelerate decision-making.
- **API-driven architecture** that integrates seamlessly with CRMs, credit bureaus, and third-party data providers.
- **360-degree client management** including collateral, exposures, guarantees, risk ratings.

All translating into a faster time-to-market, improved borrower experience, and operational efficiency that rivals top-tier banks.

AFSVision Delivers the Advantages You Need

One Platform, All Lending Needs

AFSVision supports **all loan types** and **credit structures**—from simple term loans to complex syndicated deals—and enables **end-to-end lifecycle management**.

Unparalleled Speed & Efficiency

AFSVision **reduces time to close** and fund loans by several days and **automates key processes** like fee assessments, data entry, and reporting—freeing up resources and reducing errors.

Real-Time Portfolio Insights

Get 24/7 access to your entire portfolio with **real-time data** and integrated reporting tools that provide visibility into **risk, exposure, and revenue leakage**.

Scalable & Cloud-Enabled

AFSVision is built to scale with your business—whether you're managing dozens or thousands of loans—with a cloud deployment that offers **flexibility, security, and anytime, anywhere access**.

No Customization Required

AFSVision is a **proven, out-of-the-box solution**—ready to deploy without costly custom development and is backed by **50+ years** of lending expertise.

Experience, execution, and excellence are reflected in our market leadership, our team's expertise, our technical stability and scalability, and our ability to handle complexity, compliance, and a desire to create sustainable, winning strategies for our customers.

Navigate Volatile Markets with Ease

Economic shifts, interest rate changes, and sector-specific risks can destabilize loan portfolios. Get the agility you need to meet any headwind with AFSVision's:

- **Dynamic dashboard and analytics** that assess exposure across industries, geographies, and asset classes for data-driven decisioning.
- **Real-time portfolio monitoring** that helps you detect early warning signs to help you adjust strategies proactively.

With AFSVision, you gain greater resilience and agility in volatile markets, with data-driven insights to guide lending decisions.

Mitigate Risk with Industry-Leading Analytics

Managing any lending portfolio demands rigorous oversight on every level, from determining credit worthiness to collateral management to ever-changing regulatory demands. Mitigate risk with AFSVision's:

- **Comprehensive, agile reporting** for regulatory requirements, audit trails, and policy enforcement.
- **Comprehensive collateral management** to ensure ongoing loan viability.
- **Granular credit risk analytics** to support prudent underwriting and portfolio diversification.

Gain confidence in credit quality and compliance, even as loan volumes and complexity grow.

Level the Playing Field, Gain the Competitive Edge

Traditional lenders, especially larger institutions, have scale, brand recognition, and deep infrastructure. AFSVision levels the playing field by:

- Providing **enterprise-grade capabilities** without the overhead of legacy systems.
- Enabling **rapid deployment and scalability**, so private lenders can grow without outgrowing their tech.
- Supporting **custom product configurations and flexible servicing models**, allowing lenders to tailor offerings to niche markets or borrower needs.

With AFSVision, you get a modern, competitive edge.

AFSVision: Your Strategic Advantage

In a lending environment where speed, accuracy, and adaptability define success, AFSVision gives private lenders the advantage they need. Whether you're looking to expand into new portfolio segments or scaling current operations, AFSVision equips you with the infrastructure to lead with confidence and compete with top-tier lenders. With real-time data, automated workflows, and seamless integrations, you can eliminate delays, reduce risk, and deliver a borrower experience that sets you apart.

Don't let outdated systems slow you down.
